

PUBLIC NOTICE

PERMIT APPLICATION: NRS # 04.225

APPLICANT: Jim Bonner
1191 Old Elkton Pike
Dellrose, TN 38453
(931) 732-4821

LOCATION: Elk River
Lincoln County

WATERSHED DESCRIPTION: The Elk River is located in the Elk River watershed (HUC 0603000309). The proposed site is located approximately 72 miles downstream of Tims Ford Lake and is fully supporting its designated water quality uses (domestic water supply, industrial water supply, fish and aquatic life, recreation, livestock watering and wildlife, and irrigation). The surrounding land use is primarily agricultural.

PROJECT DESCRIPTION: The applicant proposes to dredge accumulated gravel for use on private farm roads from a gravel bar on the right descending bank of the Elk River mile 61. No more than 100 cubic yards of gravel will be removed, and the gravel will not be removed below water level or where trees (>2" diameter) are growing. This project falls under the guidelines for the general permit for sand and gravel dredging, but this area of the river is a known location of the Federally listed endangered boulder darter (*Etheostoma wapiti*).

PERMIT COORDINATOR: Juliana W. Kyzar
